

Technical Specifications

■ Electrical

Power Supply	AC110V to 240V \pm 10%, 50 HZ
Operating Voltage	DC 24V
Operating Current	3A
Safety Detection	Over Current Detection
Optional Accessories	Smoke Detector, Temperature Detector and Wind/ Light/ Rain Detector
Control System	Electric power or solar control system
Control Panel	Built in controller/solar power control box (optional)

Automatic Awning / Window Openers

■ Mechanical

Model	RA
Suitable Awnings Width	1 to 6 meter
Suitable Windows Weight	up to 25 kg
Torque	25 N.M
Material	Aluminium Alloy
Driving Method	Worm Gear
Awnings Moving Speed	Open speed 3M/minute, close speed 2.5M/minute
Remote Control Button	close/ open/ stop/ function
Noise	Below 50DB
Temperature	- 25°C ~ + 50°C
Motor Size	245*70*45 mm
Carton Size	330*150*85 mm
